

DESIGNER
ERIK MAGNUSSEN
(1940 – 2014)

Erik Magnussen graduated as a ceramicist in 1960, and started working for the highly esteemed Copenhagen porcelain industry followed by Stelton, where he designed the renowned thermos.

Today, Erik Magnussen's designs are exhibited in museums all over the world. He has received numerous acknowledgements and awards for his work.

CHAIRIK

Erik Magnussen designed the CHAIRIK series in 1996. Magnussen had a pragmatic view on design and production, and used his imagination to challenge both. The results have been outstanding.

No matter which way you rotate or turn the chair, CHAIRIK is the uttermost complete and simplified design. The design was based on studies of the best possibilities of utilizing compression molded plywood and plastic, making it incredibly comfortable. The chair has a solid support, without pressure on the spine.

CHAIRIK is the perfect stacking chair for audiences that come and go. CHAIRIK is available in 29 different models and a large variety of shells and upholstery.
